

Minivan rental

ALMASYF offers exclusive Mercedes-Benz V class XL 4Matic minivans for rent without chauffeur. We are not a traditional vehicle rental company, we provide our clients with luxury minivans with the highest trim levels for business and private purposes. If you are planning a business meeting, team building exercise or family holiday, V class minivans will offer you a VIP driving experience and comfort. The Mercedes-Benz V class offers up to 8 seats with variable seat configuration – face-to-face or forward-facing – allowing passengers to enjoy high driving comfort, depending on their preferences. Upon request, we can also provide a model with captain's chairs with massaging and positioning functions.

Our vehicles are always the latest models available, we do not offer minivans older than 1 year. Regular authorised servicing and 100% clean vehicles are a given.
